A. CAREER SUMMARY:

I bring nearly 14 years of experience in the ICT sector, specializing in software development and services for both national and international organizations. Currently, I serve as an Assistant General Manager, driven by a transformational leadership approach to achieve both personal and organizational goals. With a robust background as a Senior Software Engineer, I have a proven track record in the IT industry. My aspiration is to thrive in a growth-oriented environment that offers job satisfaction, self-development, and the opportunity to contribute to both personal and organizational success.

B. PROFESSIONAL EDUCATION:

Name of Degree	Board/University	Year of Passing	Division/Class
Executive MBA	North South University	2022	CGPA 3.24
M.Sc in Computer Science & Engineering	Uttara University	2011	CGPA 3.74
B.Sc(Hons) in Computer Science	National University	2006	1 st Class
Higher Secondary Certificate (H.S.C)	Jessore	1998	1 st Division
Secondary School Certificate (S.S.C)	Jessore	1996	1 st Division

C. PROJECT MANAGEMENT SKILL:

- ✓ Strategic planning and operational management of technology projects
- ✓ Agile & Scrum methodology (sprint planning, stand-ups, retrospectives, reviews)
- ✓ End-to-end project lifecycle management (planning, execution, monitoring, delivery)
- ✓ Resource allocation and budget management
- ✓ Risk assessment and mitigation
- ✓ Stakeholder communication and expectation management

- ✓ Team leadership and cross-functional collaboration
- ✓ Process improvement and performance tracking
- ✓ Problem-solving, decision-making, and organizational skills

D. JOB EXPERIENCES:

01. Bulipetech Bangladesh Ltd.

Assistant General Manager (Technology)

Dhaka, Bangladesh

January, 2025 to Continue

As Assistant General Manager in the Technology Division at Bulipetech Bangladesh Ltd, I oversee strategic planning, resource allocation, and operational management to ensure the division meets its business objectives. I lead project development from initiation to delivery, applying agile methodologies, coordinating cross-functional teams, managing budgets, and maintaining stakeholder communication. Additionally, I monitor project performance, resolve roadblocks, and implement process improvements to drive efficiency, innovation, and successful project outcomes.

02. Softrobotics Bangladesh Ltd.

Project Manager

Dhaka, Bangladesh

September, 2023 to December , 24

As a Project Manager at Softrobotics Bangladesh Ltd, I oversee projects from initiation to delivery, ensuring they are completed on time, within scope, and budget. I lead Scrum-based agile practices—facilitating sprint planning, daily stand-ups, reviews, and retrospectives to drive collaboration and efficiency. I manage stakeholder expectations, maintain effective communication between teams and stakeholders, and remove roadblocks to progress. Working closely with product owners, I prioritize backlogs, align team efforts with business goals, and monitor performance to ensure successful outcomes.

03. Ahsanullah University of Science and Technology

Sr. Software Engineer(Java)

Dhaka, Bangladesh

November 2021 to January 2023

As a Senior Software Engineer at Ahsanullah University of Science and Technology, I design, develop, and deploy Java-based applications using the Spring Framework while managing the full software development lifecycle. I collaborate with cross-functional teams, ensure code quality, and mentor junior developers to maintain best practices. Serving as a Scrum Master, I lead agile ceremonies, remove impediments, and align team efforts with project goals for successful delivery.

04. Friendship, Bangladesh

Sr. Software Engineer

Dhaka, Bangladesh

March 2020 to October 2021

As a Senior Software Engineer at Friendship NGO, I designed and developed software solutions to support the organization's initiatives. I collaborated with the team to build scalable, user-friendly applications tailored to the NGO's needs. Additionally, I maintained and enhanced existing systems,

troubleshooting and optimizing performance to strengthen community services.

05. Save The Children, International
Senior Officer and Java Developer

Dhaka, Bangladesh
October, 2017 to September, 2019

As a Senior Officer and Java Developer at Save the Children Bangladesh, I developed and maintained secure, high-quality software applications to support organizational programs. I also provided user training, technical support, and process improvements to enhance operational efficiency.

06. BRAC International (BRAC Center)
Software Engineer

Dhaka, Bangladesh
December 2011 to September 2016

As a Software Engineer at BRAC International, I developed and maintained software solutions in collaboration with cross-functional teams, ensuring they met user requirements and best practices. I also optimized performance, troubleshooted issues, and enhanced systems to improve overall efficiency.

07. Winux Soft Ltd.
PHP Programmer

Dhaka, Bangladesh
March, 2009 to November, 2011

At Winux Soft Ltd, as a PHP Programmer, I developed and maintained dynamic web applications, writing efficient, reusable code and ensuring high performance across platforms. I also collaborated with front-end developers, troubleshooted and debugged applications, and integrated user-facing elements for seamless functionality.

E. RESEARCH EXPERIENCE:

I have conducted 3+ public health research. Apart from this, I have also academic paper regarding strategic analysis of Asian Paints in Bangladesh.
